

Kristine – UI/UX Designer & Front-End Developer

A modern, responsive, and user centered designer and developer focused on creating accessible, polished, and high-performance digital experiences. I am skilled in UI/UX design, front end development, and product optimization.

Skills

- UI/UX Design
- Wireframing & Prototyping
- Front-End Development (HTML, CSS, JS)- Accessibility & Usability
- Responsive Design
- Performance Optimization

Projects

Travel Portfolio Experience – A responsive, visually engaging travel portfolio with interactive UI.

Accessibility Driven UI/UX Case Study – A complete redesign focusing on accessibility and seamless user flows.

Performance First Landing Page – A lightweight landing page optimized for speed and clarity.
